The program for editing the articles

Until the 30th of April 2010 please register online at: <http://educatie-oradea.ro> **Scientific Conference 2010**, Online registration. The deadline for sending the articles is the 20th of May 2010. The program for editing is Word for Windows, 12 Times New Roman, single line spacing. In order to be published in the Annals of the University of Oradea, the fascicle of Teacher Training Department, the articles are expected to fulfil the following criteria:

- the title of the communication will be written in Romanian and translated in a foreign language;
- the article will have an abstract of maximum 250 words, translated in the same foreign language;
- the article must be written in the foreign language in which the title and the abstract were translated;
- the article must have a corresponding scientific and academic stand;
- the tables and the pictures must have title and number and must be mentioned in the text;
- the bibliography must be cited in the text or at the footnotes of the page (the name of the author must be mentioned, the year of publication, (eventually) the respective page);
- the bibliography must be mentioned at the end of the article with the name of the author, the year of publication, the title, the publishing house, the city, (eventually) the country;
- the article will not be longer than 7 pages;
- every author will assume the responsibility for the quality of the scientific content of the article. After reviewing the papers, the organizers reserve the right to publish selections of the most valuable scientific communications.

VASILE MARCU Prof. PhD.
Director T.T.D.

INVITATION

International Scientific Conference

**POZITIVE THINKING –
APPLICATIONS AND IMPLICATIONS
IN EDUCATIONAL SCIENCES**

**Oradea, Băile Felix,
27th – 29th MAY 2010**

Dear friends,

The Teacher Training Department of the University of Oradea would like to invite you to participate to the International Conference on the topic of: *Positive thinking – applications and implications in educational sciences*. During the symposium we propose to discuss some recent subjects in the context of the positive approaches of students necessary for developing their personality. The invited contributors are national and international specialists in educational sciences.

Your presence will contribute to the increasing of the academic reputation of our symposium!

Sections:

Educational Psychology
Pedagogy
Specialty Didactics
Special Education
New Trends in Education
Educational Management
Counselling and Guidance
Students
