

#HelsinkiSecretResidence

Together with Visit Helsinki, University of Helsinki is running a campaign called #HelsinkiSecretResidence for students. We want to offer students the opportunity to have the experience of the lifetime in the nicest student city in the world. We will offer an opportunity to get to know our city for social media influencers. Focus can be on a single platform like blog, Facebook, Twitter, LinkedIn, Pinterest or Instagram.

Students will have the chance to visit our internationally top ranking university, and meet our students & researchers. And on top of that, we will offer the flights and Visit Helsinki will offer the high-quality residence for selected quests interested in the study and science theme.
