Start your graduate student life in Japan!

The Minor course titled Science and Technology for Global Leaders is a unique 5 years graduate program of study that complements the Master's and Doctoral studies in a Major course.

It aims at reinforcing the fundamental knowledge of science, encouraging innovation and fostering leadership abilities in a cross-functional study environment. Classes in the Minor course are held in English language.

Note: Only holders of a related Bachelor's degree can apply to a Major course at Ochanomizu University and only students admitted in a Major course are eligible to apply to the Minor course and the scholarship offered on competitive basis by the Minor course.
