Alegerea unui Jurnal

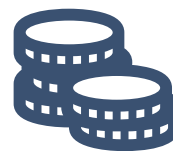

(1)

Modelul Tradițional

Model pe bază de subscripție/ abonament – acest model este reprezentat de contractul standard dintre o instituție și o casă de publicații/ jurnal academic. Cititorul neafiliat unei instituții cu acest tip de contract are opțiunea de a plăti per articol pentru a descărca și citi conținutul unui articol.

Publisherul poate accepta publicarea unui preprint/ sau ca AAM să fie indexat de către autor în repozitorii instituționale/ EOSC sau alte arhive.

Nu există costuri pentru publicare.

Drepturile de autori sunt transferate de la autori la publicație.

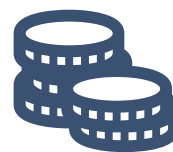

Numai persoanele afiliate unor instituții care au subscripții cu publicația vor avea access la conținutul publicat.

Modelul Open Access

Citorii pot accesa, citi, descărca și refolosi orice material din articolul publicat fără impedimente financiare/ fără a fi nevoie de crearea unui cont de utilizator etc.

Autorii trebuie să plătească un APC.

Drepturile de autori sunt menținute de către autorii lucrării.

Articolul este accesabil de oricine cu acces la internet, articolele sunt publicate cu licență CC-BY.

Journal Checks

1. Care este subiectul/ topicul cercetării ?
2. Care este publicul țintă?
3. Tipul de articol în care manuscrisul a fost realizat este publicat de jurnalul meu țintă?
4. Impact factorul este important pentru mine?
5. Ce alte condiții mai trebuie să îndeplinească jurnalul în care public?
6. Jurnalul ales este în concordanță cu criteriile finanțatorului?

Predatory Journals

Predatory Journals sunt entități care prioritizează diferite interese în detrimentul spiritului academic și sunt caracterizate de informații false, sau parțial corecte, devieri de la principiile etice în practicile editoriale și de publicare și lipsa transparenței.

Transmiți rezultatele cercetărilor tale unui/unei jurnal/reviste de încredere ?

Este jurnalul/revista potrivit/ă pentru publicarea rezultatelor cercetărilor tale?

- Multe rezultate ale unor cercetări sunt publicate în lume.
- Jurnale/reviste noi se lansează în fiecare săptămână.
- Zvonuri despre știri false și publicații ce practică metode incorecte sunt din ce în ce mai numeroase
- Este dificil de găsit un ghid la zi după care să alegi unde să publici.

Folosește drept ghid această listă de întrebări, pentru a stabili dacă jurnalul/revista ales/aleasă este de încredere.

Tu sau colegii tăi cunoașteți jurnalul/ revista ?

- ☐ Ai citit vreun articol din acest jurnal înainte de a-l alege?
- ☐ Se pot găsi ușor ultimele articole apărute în jurnal/revistă?

Se poate identifica și contacta cu ușurință redacția/editura jurnalului/revistei?

- ☐ Apare clar numele editurii/redactorilor pe Website-ul jurnalului/revistei?
- ☐ Poți contacta editura/redactorii prin telefon, email și poștă?
- ☐ Este jurnalul clar, cu privire la tipul de evaluare a articolelor utilizat de către colegii din domeniul tău?
- ☐ Poți găsi cu ușurință în indexul lor articole pe care să le folosești?

Este clar ce taxe vor fi percepute?

- ☐ Site-ul jurnalului/revistei explică ce sunt aceste taxe și când vor fi taxate?

Dacă poți răspunde “da” la majoritatea întrebărilor de pe listă.

Indexing and Archiving

Informațiile legate de indexările și formele de arhivare ale jurnalului trebuie să fie verificabile, clare și ușor de parcurs pe pagina unui jurnal/ publisher.

The screenshot displays the MDPI website's interface for the 'Applied Sciences' journal. At the top, the MDPI logo is on the left, and navigation links for Journals, Topics, Information, Author Services, Initiatives, and About are on the right. A search bar is positioned below the navigation links. The main content area is divided into two columns. The left column features the 'Applied Sciences' logo, a 'Submit to Applied Sciences' button, a 'Review for Applied Sciences' button, a 'Journal Menu' with a list of links (including 'Indexing & Archiving' which is highlighted), and a 'Journal Browser' with dropdown menus for 'volume' and 'issue'. The right column is titled 'Applied Sciences — Indexing & Archiving' and lists the databases and archives that cover the journal: AGRIS, BibCnrs, CAPlus / SciFinder, CNKI, DOAJ, EBSCO, Elsevier Databases (with Scopus as a sub-item), FRIDOC, Gale, Inspec, INSPIRE, OpenAIRE, OSTI (U.S. Department of Energy), PATENTSCOPE, ProQuest, SafetyLit, and Web of Science (with SCIE, Current Contents - Engineering, Computing & Technology, and Current Contents - Physical, Chemical & Earth Sciences as sub-items). On the far right, there are two circular badges: a yellow one for 'IMPACT FACTOR 2.838' and a dark blue one for 'CITESCORE 3.7', along with social media sharing icons and a warning icon.

Publicarea unui Manuscris

(3)

Procesarea unui Manuscris

Procesul de Publicare este identic pentru jurnalele care publică cu access închis sau Open Access. Decizia autorilor de a submite un manuscris la un anumit jurnal este condiționată de mai mulți factori printre care: cerințele instituției afiliate, cerințele finanțatorului, politici naționale/ internaționale, prestigiul jurnalului, Impact Factor etc.

Înainte de Publicare

După ce manuscrisul este acceptat pentru publicare editorii jurnalului vor edita profesional manuscrisul după care va fi trimis înapoi autorilor pentru verificarea finală (proofreading) înainte de publicare.
