Pentru cazurile de încălcarea dispozițiilor statutului sau a realizării cu superficialitate a lucrărilor, se aplică dispozițiile Codului Muncii și prevederile legale din domeniu.

2. Scopul și necesitatea constituirii

Art. 8. (1). CCCDD se constituie și funcționează pe lângă Facultatea de Științe Economice a Universității din Oradea, la inițiativa unor cadre didactice și cercetători cu vastă experiență științifică și didactică, fiind avizat de Consiliul Facultății de Științe Economice în ședința din data de 18.09.2007.

(2). CCCDD dorește să devină un centru de referință în domeniu, reprezentând întreaga activitate de cercetare a cadrelor didactice și cursanților Universității din Oradea în ariile de cercetare ale centrului.

(3). CCCDD caută să promoveze interacțiunea între cercetătorii din cadrul Universității din Oradea, dar și să stimuleze dialogul cu alți cercetători la nivel național și internațional, prin promovarea și publicarea unor volume cu rezultate ale activității de cercetare și prin parteneriatele încheiate cu alte centre de cercetare.

(4). CCCDD are astfel, ca scop:

a) Formarea cadrelor didactice tinere și a studenților masteranzi și doctoranzi în vederea dezvoltării apetenței și aptitudinilor pentru cercetarea științifică și aplicativă.

b) Contribuția la cercetarea științifică în domeniul științelor economice și socio-umane, precum și căutarea de noi soluții privind problemele curente în domeniu.

c) Promovarea și diseminarea pe plan național și internațional prin conferințe, simpozioane și publicații în reviste de specialitate (cotate ISI, sau în BDI) a rezultatelor cercetării științifice.

d) Sprijinirea integrării europene a României în ceea ce privește învățământul economic superior și cercetarea științifică în perspectiva atingerii obiectivelor stabilite la Lisabona pentru anul 2010, pe următoarele priorități:

- încurajarea inovației, a spiritului întreprinzător și a creșterii economiei bazate pe cunoaștere, prin capacități de cercetare și inovare, inclusiv noi tehnologii de informații și comunicare; și
- crearea unor locuri de muncă mai multe și mai bune prin atragerea mai multor persoane în activitatea antreprenorială, ameliorarea capacității de adaptare a muncitorilor și companiilor și creșterea investițiilor în capitalul uman.

- asigurarea unui echilibru între obiectivele duble de dezvoltare și locuri de muncă pe de o parte, și coeziunea economică și teritorială pe de altă parte.

- e) Sprijinirea științifică, tehnică și sub aspectul aquis-ului UE, a sectoarelor industriale din România, în vederea creșterii competitivității produselor și a serviciilor pe care le furnizează;
- f) Diseminarea rezultatelor cercetării și a reglementărilor din domeniile de interes și a ariilor de cercetare menționate, prin formare continuă și postuniversitară, în conformitate cu cerințele de pe piața muncii.
- g). Dezvoltarea și diversificarea colaborărilor cu unități similare din țară și străinătate, prin participarea la manifestări științifice interne și internaționale, cu scopul de a face cunoscute ariile de cercetare proprii și rezultatele obținute. De asemenea, se urmărește realizarea de contracte de colaborare cu unități de cercetare și de învățământ din țară și străinătate, urmărindu-se contactul permanent cu ultimele descoperiri științifice în domeniul de activitate specific CCCDD și atragerea atenției, din partea altor unități similare, asupra propriei activități în domeniu.
- h). Reprezentarea activității de cercetare științifică a Facultății de Științe Economice a Universității din Oradea în raporturile cu partenerii naționali și internaționali ai acesteia, conform acordurilor existente, încheiate de Facultatea de Științe Economice, cât și a celor viitoare.
- i). Promovarea și sprijinirea competiției, în condiții de egalitate de șanse între bărbați și femei.
- j). Susținerea școlii doctorale inter- și pluridisciplinare pe domeniile specifice Facultății de Științe Economice a Universității din Oradea. Eforturile vor fi îndreptate spre dezvoltarea cercetării prin doctorate și valorificarea mai bună a tezelor.
- k). Stimularea potențialului și capacității colectivelor de cercetare prin racordarea acestora la programe prioritare de cercetare pe plan național și internațional; programarea cercetării în cadrul național, european și global de referință, pentru participarea la programele de cercetare științifică naționale și internaționale.

Art. 9. CCCDD promovează, în domeniul cercetării științifice, următorul set de valori:

- a). Profesionalism și atitudine etică față de cercetare;
- b). Performanță în cercetare exprimată prin publicații recunoscute pe plan internațional, conferințe susținute la înalte foruri naționale și internaționale și realizări concrete de valoare în economie și societate;
- c). Dezvoltare profesională;
- d). Libertate a cercetătorului și a cercetării.

Art. 10. (1). Constituirea acestui centru răspunde unei necesități comunitare, științifice și formative de a multiplica eforturile naționale, regionale și locale în vederea integrării economice a României în Uniunea Europeană și ținând cont de faptul că, în actualul context economic, dezvoltarea competitivității locale și regionale este un obiectiv vital pentru a permite UE să eradică următoarele încercări prezente: disparitățile socio-economice apărute după aderare; restructurările rezultate din globalizare; revoluțiile tehnologice; progresul economiei și al societății bazate pe cunoaștere; îmbătrânirea populației europene și creșterea imigrării.

(2). Utilitatea constituirii CCCDD rezultă din:

- a) Importanța națională, europeană și mondială a domeniului abordat, care are implicații în toate sectoarele de activitate economică, învățământ și calitate a vieții, prin implicarea științifică și educațională;
- b) Decalajul științific al României față de Uniunea Europeană, accentuat de retardul activității economiei naționale și de reducerea activității centrelor de cercetare din domeniu;
- c) Valorificarea organizată a rezultatelor recunoscute ale cercetărilor efectuate de către membri CCCDD.
- d). Necesitatea încadrării cercetării științifice din domeniul CCCDD în strategiile definite larg de Consiliile europene de la Lisabona și Göteborg ale UE, care, pentru a răspunde așteptărilor

cetățenilor europeni, prevăd explicit dinamizarea competitivității Uniunii, având în vedere o creștere durabilă a acesteia.

e). Nevoia de a răspunde cât mai coerent și prompt politicii de coeziune economică și socială a Uniunii Europene, ce are ca scop reducerea diferențelor de dezvoltare dintre diferitele regiuni ale Uniunii.

f). Creșterea capacității de asimilare a Fondurilor Structurale la nivel național, prin elaborarea unor proiecte de cercetare care să contribuie, direct sau indirect, la realizarea obiectivelor strategiei Lisabona, mai ales dacă luăm în considerare faptul că fondurile structurale vor avea un impact major asupra competitivității regiunilor și vor permite ameliorarea condițiilor de viață a cetățenilor României într-o manieră substanțială.

g). Necesitatea constituirii de echipe de cercetare, care să grupeze alături de cadre didactice, și doctoranzi, masteranzi și studenți, cu scopul de a antrena cursanții Facultății de Științe Economice în activități practic-aplicative și de cercetare, pentru a-și putea transpune astfel cunoștințele teoretice asimilate în cadrul activității didactice.

Description of data	The type of data that is collected, generated, processed, analyzed and archived by the research center is specific to the field of economic sciences, focusing on the following research directions: Business Administration; Banks and banking services; Insurance; Exchanges and transactions of goods and values; Economic analysis; Cyber-tics; Economic informatics; Financial Control-Audit; Competitiveness; Accounting; Sustainable Development; Development of human resources; Economy; Economy and international trade; Finance; Globalization; European integration; Economic policies; Management; Marketing; Negotiations/Ethics; Business communication in foreign languages; Economic Relations and International Affairs; Statistics and economic forecasting; Tourism and Services etc. Consequently, the data used is derived from national and international repositories, and collected from economic and non-economic institutions as well as people based on questionnaires and interviews. Based on the principles of secondary analysis of social data, CCCDD re-use existing data from national and international data base respecting the rules imposed by license (correct mention of the data source). The size of data produced can vary based on the aim, objectives and scale of each individual surveys. For data quality control, research center uses standardized instruments, research methods, validated measurement scales and standardized data analysis protocols. Data analysis is ensured using well-known software such as SPSS, NVIVO, Microsoft Excel. Software is used for data validation to identify errors or inconsistencies, to identify outliers or abnormal patterns CCCDD encourages pre-testing of research instruments to identify potential issues and conducting pilot studies according to the thematic addressed in each survey. The subjects included in economic and social investigations are institutions and people. Respecting all deontological and ethical norms, CCCDD applies data anonymization procedures to protect respondent privacy. The research center adheres to ethical guidelines and standards for social research. Personal and sensitive data are handled with utmost care and in compliance with data protection laws and regulations.

	Each respondent included in the research is informed about the purpose of data collection and how their information will be used, and, where necessary, informed consent is obtained from participants.
2. Data Collection & storage	Data collection and data management follows the rules implied by sociological research methodology. Each researcher is responsible to follow the research methodology, applying data standardization measures and archiving them. Data and research results are stored in institutional repository (harddrives and computers) and are available upon request. The databases are archived based on the research themes addressed in the sociological surveys.
3. Data sharing & open data	CCCDD mostly generates and manages databases obtained in quantitative and qualitative research. The databases are archived at the institutional level. Access to the databases is open by request. The databases are not stored in an official repository. To encourage the re-use of data and to promote research results, depending on the type of data, CCCDD follows to give open access according to the principle ‘as open as possible as closed as necessary’. Our research center wants to ensure the dissemination of research data and research results and provides upon request information about any research output or any other tools and instruments needed to re-use or validate the data. Available datasets include the description of data, keywords, authors, project title and funding (if the case), research methodology and instruments, licensing terms, related publications and other research outputs (if the case). The conditions for accessing the data are established by the research team members, depending on the theme and the activity carried out.
4. Legal and ethical aspects	<i>Sensitive data</i> All sensitive data (survey participant information, if the case) is stored using standardized protocols to safeguard against unauthorized access. Access to sensitive data is restricted only to researchers involved in the research activities and is used only for scientific purposes. Physical storage of any collected documents or data is kept in secure archives. Regular backups of sensitive data are performed to ensure data integrity and availability. These backups are stored in secure locations. Data is retained only for the necessary duration and is securely deleted when it is no longer needed. <i>Data security and GDPR</i> Survey participants are provided with clear information about the purpose of data collection, and their consent is obtained before collecting in the case of any sensitive information needed. CCCDD takes all measures to ensure the

	confidentiality of participant information and no personally identifiable information is disclosed without explicit consent. Data is anonymized to protect the identity of participants. Personal identifiers are stored separately from the research data. Our data collection and storage practices comply with the General Data Protection Regulation (GDPR) guidelines.
