

8. ACCOMMODATION

Where to sleep

Foreign students who study in Romania can obtain accommodation and food in the campus facilities upon room availability. For that they must address directly to the secretariat of the faculty they opted for.

You can also find accommodation in hotels, or to rent a flat. For assistance in finding accommodation in private flats the students can contact directly the local real estate agencies.

Where to eat

You can choose to eat at the University Canteen, at a restaurant, or you can cook your meal at home.

Here you can find a list of places where you can find accommodation, or where you can have a meal.
