

**UNIVERSITY OF ORADEA
FACULTY OF ENVIRONMENTAL PROTECTION
DEPARTMENT OF AGRICULTURE AND HORTICULTURE**

TOPICS AND BIBLIOGRAPHY FOR THE COMPETITION

For Position No. 8 in the Staffing Chart of the Department of Agriculture, Horticulture for the Academic Year 2024–2025

GRASSLAND AND FORAGE CROPS I – Lectures

1. Grassland as an ecosystem. General characteristics of grassland ecosystems
2. Vegetation of permanent grasslands. Morphology and biology of grasses in grasslands
3. Morphology and biology of perennial legumes in grasslands
4. Morphology and biology of species from other botanical families present in the grassland sward
5. Typology of grasslands in Romania

BIBLIOGRAPHY

GRASSLAND AND FORAGE CROPS I – Practical Works

1. Recognition characteristics of species from the Poaceae (Gramineae) family
2. Recognition characteristics of species from the Fabaceae (Leguminosae) family
3. Identification of forage plants from other botanical families
4. Identification of annual forage plants from other botanical families

GRASSLAND AND FORAGE CROPS II – Lectures

1. Maintenance of permanent grasslands. Improving the nutritional regime of grasslands
2. Regeneration of the grass sward in permanent grasslands
3. Sown grasslands established on degraded permanent grasslands
4. Establishment of sown grasslands on arable land
5. Grassland exploitation methods

GRASSLAND AND FORAGE CROPS II – Practical Works

1. Methods for qualitative analysis of grassland vegetation
2. Methods for quantitative analysis of grassland vegetation
3. Designing grass seed mixtures for temporary grassland establishment
4. Determining grassland production and grazing capacity
